THIS EMBARGO SHOULD BE RESPECTED OVERSEAS BY PREFACING ANY MESSAGES FILED WITH THE EMBARGO

EXPORT LICENSING

EXPORT OF GOODS (CONTROL) ORDER, 1942, NO.15

Collapsible containers of lead or tin, manufactures of cork, clock movements for recording instruments, woollen woven tissues cut to a width of 18 inches or less and a number of additional chemicals will be subject to export control on and after 21st April, 1942, under the Export of Goods (Control) (No.15) Order (S.R. & O.1942, No.578) made by the Board of Trade. *Copies of the Order, price 1d. will shortly be available from H.M.Stationery Office or through booksellers.

Licences will, in future, be required to export the following classes of goods to all destinations:-

Containers, collapsible, wholly or mainly of lead, tin or alloys containing either of those metals.
Golf clubs, steel shafted.
Manufactures containing 10 per cent or more by weight of cork.
Clock movements (including electrical clock movements), whether or not fitted with drums, discs or other attachments, of the kind used in recording instruments.
Butyric acid and its salts and esters and preparations thereof.
Diethanolamine
Gas detector paint
Iron oxides
Manoethanolamine
Tin oxides, whether hydrated or not
Triethanolamine

Applications to export steel shafted golf clubs, manufactures containing 10 per cent or more by weight of cork and gas detector paint will not normally be entertained.

The existing licence requirements with respect to (a) woollen woven tissues, (b) chromium compounds and (c) lead acetate; lead arsenate; lead chromate and pigments containing lead chromate; and lead tetra-ethyl and mixtures containing lead tetra-ethyl are superseded by the provisions that licences will, in future, be required to export the following:-

/Woven

(a) Woven tissues containing more than 15 per cent by weight of wool and exceeding 18 inches in width or cut to a width of 18 inches or less, whether or not coated, impregnated or in any other way treated or operated upon, but not including floor coverings.

(b) Chromium compounds (other than barium and zinc chromates) and preparations thereof (except distempers, lacquers, varnishes, paints and painters' enamels, prepared or ready mixed and pigments containing lead chromate.)

(c) Lead compounds; mixtures containing lead tetra-ethyl and (to certain specified destinations) pigments containing lead chromate.

Hexamine, the exportation of which was previously prohibited to destinations outside the British Empire will now require licences for all destinations.
