August 3, 1962

Dr. Jean-Paul Zwilling
Chef du Centre de Recherches
Societe Nationale des Petroles d'Aquitaine
Lacq (B.-P.)
France

Dear Dr. Zwilling:

When you were visiting Houston, it seemed we would have little chance to meet again. However, these are unusual times and people have more opportunities to travel.

There is a "Colloque sur le Paleogene", arranged by the Comite National Francais de Stratigraphie, scheduled for September 3 (Lundi) to September 9 (Samedi), 1962. The Colloque is to be held at the University of Bordeaux at Talence (Gironde), and I plan to attend. I plan to participate in the geological pre-convention field trip and shall arrive with that group of excursionists from Paris, presumably by train. There is an excursion to Lacq scheduled too. I may be able to participate in that one too. At any rate I shall be in Bordeaux in September, and it would be nice to meet you again during that time. The gentleman in charge at Bordeaux is Monsieur le Professeur Vigneaux, Laboratoire de Geologie, Faculte des Sciences, 351 Cours de la Liberation, Talence (Gironde).

With best regards,

Sincerely,

H. B. Stenzel
