

Bill of Rights

Author Rights

Colleen Lyon, Scholarly Communications Librarian

Oct. 28, 2014

What are author rights?

Basics of copyright

- An item is copyrighted at the moment it is created in a fixed medium

Basics of copyright, cont.

- It last a really long time
 - Life of the author + 70 years
 - Corporate author: 95 years from publication or 120 from creation (whichever comes first)

Copyright is actually a bundle of rights

- To produce copies and distribute those copies
- To import or export the work
- To create derivatives
- To perform or display publicly
- To sell or cede rights to others
- To transmit by radio or video

And one last thing...

- Multiple authors jointly own copyright and each may exploit their rights without getting explicit permission from the others*

What is the point of copyright?

- US Constitution: "To promote the progress of science and useful arts"

- For most publishers:

Copyright and academic publishing

Copyright transfer agreements

From Journal of the American Medical Association:

In consideration of the action of the American Medical Association (AMA) in reviewing and editing this submission (manuscript, tables, figures, video, audio, and other supplemental files for publication), **I hereby transfer, assign, or otherwise convey all copyright ownership, including any and all rights incidental thereto, exclusively to the AMA**, in the event that such work is published by the AMA.

From PLOS:

PLOS applies the [Creative Commons Attribution \(CC BY\) license](#) to all works we publish. Under the **CC BY license, authors retain ownership of the copyright for their article**, but authors allow anyone to download, reuse, reprint, modify, distribute, and/or copy articles in PLOS journals, so long as the original authors and source are cited. No permission is required from the authors or the publishers.

Open access publishers tend to be more author-friendly

You can choose your publisher based on their policies

Publisher copyright policies & self-archiving

Search

Journal titles or ISSNs Publisher names

Exact title starts with contains ISSN

[Advanced Search](#)

Use this site to find a summary of permissions that are normally given as part of each publisher's copyright transfer agreement.

**What if you have to
publish in _____ journal
to get tenure?**

The copyright transfer agreement is the start of a negotiation process*

ADDENDUM TO PUBLICATION AGREEMENT

1. THIS ADDENDUM hereby modifies and supplements the attached Publication Agreement concerning the following Article:

(manuscript title)

(journal name)

2. The parties to the Publication Agreement as modified and supplemented by this Addendum are:

_____ (corresponding author)

(Individually or, if one than more author, collectively, Author)

(Publisher)

3. This Addendum and the Publication Agreement, taken together, allocate all rights under copyright with respect to all versions of the Article. The parties agree that wherever there is any conflict between this Addendum and the Publication Agreement, the provisions of this Addendum are paramount and the Publication Agreement shall be construed accordingly.

**A publisher is not going to say
no to your article just because
you try to negotiate!**

Author's final manuscript is almost always ok to share

You can share your work via the UTDR
