3/11/41 - No. 12.

The question has been raised as to whether soldiers who have been released for any reason from service with the colours and are now serving on Class W of the Regular Army Reserve or Class W (T) of the Territorial Army Reserve may join the Home Guard.

The War Office wish it to be clearly understood that such men are eligible for service during their release with the Home Guard, where their training and experience should be of considerable value.

They are, therefore, urged to apply at once to their local unit for enrolment.
