

14.11.41 No. 6.

WATERLOGGED SHELTERS TO BE REPLACED

The Ministry of Home Security is arranging for people whose Anderson shelters are badly water-logged and cannot be repaired in the near future, and who live in districts where the Morrison shelters are being distributed, to receive Morrison shelters instead, provided the house is suitable and the family is not too large.

These Andersons will be removed and issued to other families eligible for fresh shelter, although a householder may be allowed to retain his if he specially wants to, provided he undertakes to do his best to keep it dry. In cases where he is not successful it will be open to the local authority to take the Anderson away.
