Dr. H. B. Stenzel, Geologist
Bureau of Economic Geology
University of Texas
Austin, Texas

Dear Dr. Stenzel:

For two and one-half months I have been away from home on a war construction project and have not had much opportunity to think about fossils. Thank you for the copy of the Handbook of Texas Cretaceous Fossils. I am going to get a lot of information from it, and there will come a time when there will be time again for fossil collecting.

Separately I am mailing you the crustacean fossil which I found at California Crossing and about which I have previously written. If the specimen turns out to be something new you may keep the fossil for the University's collection. I would like a photograph or a cast if you have any made so that I can check with material I hope to find in the future.

With kindest personal regards, I am,

Sincerely yours,

Eugene Davis
