Mr. H. B. Stenzel
c/o Texas A & M. College
College Station, Texas.

Dear Stenzel -

Mr. Plummer has recently notified me that I have been appointed as a member of the program committee for the Dallas meeting, and my duty is to arrange a symposium on the Tertiary faunas of the Gulf Coast. I remember that last year you read a paper on some minute Gastropoda which might be found in well cuttings and cores and, would, therefore, be of value to the economic paleontologist. I wonder if you have other material of the same sort which you could present in Dallas in March.

I will sincerely appreciate your cooperation, and hoping that I may see you at the meeting, I am

Yours sincerely,

C. J. Alexander
