

THE GREAT BARRIER REEF COMMITTEE

(AFFILIATED WITH THE UNIVERSITY OF QUEENSLAND)

March 18, 1965

Heron Island Research Station
Via Gladstone
Queensland
Australia

Dear Dr. Teichert

I have your letter of March 1, 1965.

I was pleased to hear from Dr. Newell and Dr. Stenzel, who I met respectively in Australia and in Paris.

I understand you have no reply from Dr. René Catala about transparencies and films of living Nautilus. I have been told he was seriously ill. That may be the reason of his not answering you.

You could contact the Institut Français d'Océanie, Anse Vata, Nouméa, Nouvelle-Calédonie, asking them to obtain what you want from the person who is looking after Dr. Catala's affairs for him.

Sincerely yours

P. Fischer

DR. P. FISCHER.
