LEWISTOWN, MONTANA

Dr. H. E. Stenzel,
Bureau of Economic Geology
University of Texas
Austin, Texas

Dear Dr. Stenzel,

Guy Rambie wrote me that my drafting bill is at least \$250.00 - 168 hours @ \$1.50/hour - and that you are having an additional approximate 25 more hours work done.

It seems to me that this is an excess amount of expences to ask for a Master's Thesis. The typing will cost about \$50.00, the photostat work about \$50.00, and the drafting as you have ask for will cost approximately \$290.00. This gives a total of about \$390.00.

With these expences to meet and an income of \$325.00/month, how am I going to make my first million???

Seriously Dr. Stenzel, it seems unnecessary for the University to expect a drafting bill of that amount for a Master's Thesis.

I recieved a letter from Lookout saying he was in Fuelbo, Colorado, working for the Shell Oil Company. I may get up, or rather down, to see him on the Colorado or Wyoming field trips.

Do you know what has happen to the other boys who worked on your project in Cushing??

Yours respectfully,

Leroy Gatlin
