February 21, 1951

P. S. WILLIAMS
CHIEF OF RESEARCH

POST OFFICE BOX 801

Dr. H. B. Stenzel
Department of Geology
University of Texas
Austin, Texas

Dear Dr. Stenzel::

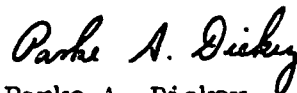

Mr. Ralph Giannone has applied to us for a position as geologist in our Tulsa laboratory, and has given us your name as a reference.

It is important that we have as much information as possible about each person that we employ. We would, therefore, appreciate your frank comments as to his character, habits, personality, community interests, etc., as well as to his technical qualifications. The position in our research laboratory requires a man with technical ability, originality, and enthusiasm whose interest in his problem will supply the necessary drive. At the same time, our organization requires that he work as part of a group on whatever problem is assigned, so that he must be cooperative with his associates and supervisors.

All information that you furnish us will, of course, be regarded as confidential. A stamped envelope is enclosed for your convenience.

Thanking you for your cooperation.

Very truly yours,

Parke A. Dickey
Head of Geological Research
