WASHINGTON

May 11, 1934.

Dr. H.B. Stenzel,
A. & M. College,
College Station, Texas.

Dear Doctor Stenzel:

Thank you very much for the "Decapod crustaceans". The next time I go to the Brazos I shall certainly take my copy with me in the hope of finding crustacean material.

I am very glad to have the sections from Brazos County.

My next field trip will be very short and I am afraid it will not include College Station.

With my best wishes for the coming summer,

Very sincerely yours,

Julia Gardner,
Julia Gardner,
Geologist.
