AIR MAIL

Dr. H. B. Stenzel
Conrad Hilton Hotel
Chicago, Illinois

Dear Henryk:

I have your letter of April 16, and I am sorry that I cannot meet you in Chicago. It is a little late for me to plan such a trip. Thiel, Swain, Sloan, and Schwartz of this department will all be away, and I had expected to be on hand here.

The trouble also is compounded by the great volume of work that must be done for the GSA. The pressure now is to get the guidebook for the Precambrian trip ready. We must have it all typed and ready for offset printing by June 1st. The guidebook is a rather elaborate affair, and I must do most of the work of editing and collating the material submitted by a large number of people. This weekend Dr. Marsden of the Oliver Mining Division is coming here from Duluth, and next week I hope some of the other geologists from the iron ranges will be in for conferences. It is too late to reschedule these conferences without upsetting the time table. We must worry about the typing, the drafting, etc.

I hope to send you some data sheets and reprints. If plans develop, I should consider coming to Houston for talks, but I hope this can be arranged so as not to interfere with the workings of the GSA meeting committees that I must look after. Best regards and I hope that you enjoy the meetings; I wish I could be there.

Sincerely yours,

S. S. Goldich
