Dr. H. B. Stenzel  
The University of Texas  
Bureau of Economic Geology  
Austin 12, Texas

Dear Doctor Stenzel:

I have examined the spiralled tubes that you sent, but am not yet prepared to say that they are not serpulid annelids. I should like to investigate the literature more fully, as well as consult with some mollusk specialists, before committing myself.

It was a genuine pleasure to meet you. I enjoyed your visit and hope that if another opportunity presents itself you will call again.

Very truly yours,

*Olga Hartman*
