Dr. H. B. Stenzel  
Bureau of Econ. Geology  
Austin, Texas

Dear Dr. Stenzel:

I am preparing a manuscript on the Foraminifera of the Cane River Eocene of Louisiana, in which I am attempting to show the relationship of the Cane River to the Mt. Selman of Texas. Knowing that you have spent a great deal of time on that part of the Texas section, I am desirous of knowing your latest opinion on the lithology of the Mt. Selman. Would you please send me a reprint of your latest paper or tell me which publication carried the article?

With sincere appreciation, I remain,

Sincerely yours,

Keith M. Hussey
