

February 6, 1950

Mr. M. C. Israelsky
c/o School of Geology
California Institute of Technology
Pasadena, Calif.

Dear Merle:

Just a hurried reply. The mimeographed letter concerning collaboration micropaleo. did not go out except to the Council and you. The situation is obviously touchy. I don't think you can afford to raise your voice unless asked about it. But in case something comes up I want you to know the background of the situation.

My teaching has started and I am kept busy filling out cards and questionnaires, which seem to be the most important part of teaching these days. The fellow who is supposedly going from here to Berkeley is Wilson, one of our two Wilsons here, who is a paleozoic man from Yale and quite young. A good man; I would be sorry to see him go if he were to go, which is not yet settled, I believe.

With best regards,

Sincerely,

H. B. STENZEL
Geologist
