DEPARTMENT OF GEOLOGY

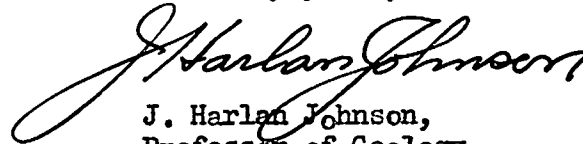

Dr. H. B. Stenzel
Bureau of Economic Geology
University of Texas
Austin, Texas

Dear Dr. Stenzel:

The package of fossils which you so kindly sent came yesterday. I am very glad to get them and certainly thank you for your kindness in the matter.

The package of algal limestone from Fort ^{DAVIS} Collins which one of your men sent was received several days ago. I am having thin sections made. As soon as they are finished I will report back.

Sincerely yours,

J. Harlan Johnson,
Professor of Geology
