New York 4, New York

Dear Doctor Jablonski:

Your letter of June 8 has been received. Naturally I am much impressed by your plans.

Of the four objectives mentioned in your letter I am confident that I could handle items 2, 3, and 4 after a short orientation period. As to micropaleontological service I have had no occasion to do any micropaleontologic work and do not feel justified in extending myself into that field.

As to salary requirements I am unable to state a figure at present. I am gathering data on living conditions, etc. that will enable me to have a clear picture of the situation, but it will take some time to do so. If it is possible for you to find out what school facilities exist in Bogota for girls 9, 11, and 14 years old, I would appreciate your advice.

Very truly yours

H. B. Stenzel
