

Havana, Cuba, December 30, 1937

Mr.H. B. Stenzel,  
University of Texas,  
Austin, Texas  
U.S.A.

Dear Mr. Stenzell:

I am very glad to acknowledge receipt of your kind letter of Dec.20th, enclosing your list of shells for exchange for which I thank you very much.

Your list of duplicate fossil shells is the most interesting to me and I will be very glad to have all the species listed as all them are lacking in my collection.

I am enclosing your list of duplicates and also a list of some of the duplicate marine species I have at this time available at present, with the specimens I can send to you. I have also a great lot of cuban species which are not yet studied and which I will be very glad to send you a list of the duplicates as soon as it could be done.

Trusting that you will find some species of interest to you collection, I send to you my best wishes for a very happy and prosperous New Year.

Please take note of new address:

Miguel L. Jaume,
