

SHELL OIL COMPANY

June 2, 1959

Dear Doctor Stenzel,

Tempus has certainly fugited since I received your nice letter. We were happy to hear that you are doing better and also that you have a new girl in the family. Congratulations.

While on the subject of congratulations - may I offer my most sincere ones on your honorary membership in S.E.P.M. That is a very select and truly great group of great men - Galloway, Hanna, Moore, Stenzel, Thalmann, & Howe. Are there any fields left for you to conquer?

John and I were naturally quite pleased with the news about the Stone City paper. It makes one feel good to know people are using it. We are proud of it but realize it would have been nothing without your guiding hand.

Shell is now in new quarters in the Petroleum Tower (still not finished on upper three floors). John and Don Gray asked me to send their best wishes.

My family is fine - David is off in Big Bend with Explorer Scouts. Edna just walked off last Friday as top honor graduate of Del Mar College (AA degree). She received a beautiful plaque + special ceremony at commencement. She is teaching swimming for Red Cross for next three weeks at TAM and is lifeguard at University of Corpus Christi all summer.

Sincerely,
Erwin
