Dr. P. Korringa
Government Institute for Fisheries Investigations
Bergen-op-Zoom
Netherlands

Dear Dr. Korringa:

I have been reading and using your two articles "Recent advances in oyster biology" (1952) and "On the nature and function of "chalky" deposits in the shell of Ostrea edulis Linnaeus". They are both very useful to paleontologists. If you have any separates to spare, I would appreciate them greatly.

Very truly yours,

H. B. Stenzel
