Prof. H. V. Andersen
School of Geology
Louisiana State University
Baton Rouge, Louisiana

Dear Professor Andersen:

Please accept my thanks for your assistance during my visit. I enjoyed getting better acquainted with you, and the festivity was particularly good.

Enclosed is a receipt for the fossils which I borrowed from your museum. Probably there will be some photographs of them in the Treatise. In other words, they will become types of some sort. I shall return them to you.

Thanks and best wishes.

Sincerely yours,

H. B. Stenzel
