

August 1, 1969

Mr. A. L. Iyck  
2615 - 24th Avenue  
Meridian, Miss.

Dear Al:

I was very glad to hear from you, and note how well you are placed. Hope you stay there for a while and recover in more than one way.

Seems I may have a chance to visit with you soon. There will be a small group of U. S. G. S. geologists on a field trip to inspect the Yegua-Jackson boundary in your region and I am invited. I shall be in Meridian Saturday, August 20, probably, so keep that date open. Shall let you know more later on.

Best wishes,

Sincerely yours,

H. B. STREIBEL  
Geologist
