Professor H. B. Stenzel
Bureau of Economic Geology
University of Texas
Austin 12, Texas

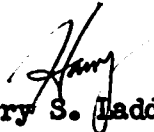

Dear Henryk:

Your letter of June 4 accompanied by your rewritten manuscript for the Ecological Treatise has arrived, and I have given the paper a quick review. It seems to be in good order, and we are very glad to have it. Should there be any editorial changes of consequence, I will send a marked carbon to you for your consideration.

I was much interested to learn of your decision to move to Houston and become Chairman of the Geology Department at the University of Houston. I can well believe that this will mean a great deal of extra work for you and I send congratulations and best wishes in your new work. I am sorry that you were not able to visit Washington and attend the gathering of Treatise contributors. Everyone seemed to have an enjoyable time, and it is too bad that you could not be with us.

With best regards.

Sincerely yours,

Harry S. Ladd
