Houston 6, Texas

Dear Henryk-

Yesterday I heard from two of our mutual friends, Wendell Woodring and Gus Cooper, that you, like our President Ike, had suffered a heart attack and that you were taking it easy at home. I know that it will be difficult for you to curb your energy and adjust temporarily to a less active life but I think you will do a good job of it as you do with everything you set your hand to. I wish the AAPG Convention next month was scheduled for Texas instead of Missouri. I'd welcome a chance to have a visit with you.

Our ecological treatise moves slowly toward publication in spite of delays at the printing plant. The printer now promises that volume 2 (with 2 of your contributions) will be distributed "during the week of March 5th" and this time I think he really means it.

The USGS has at last been given a green light on its new building. We are to take over the grounds now occupied by the Bureau of Standards. This is a well-earned feather for Tom Nolan's cap.

All the best, Henryk,

Sincerely,

*Harry S. Ladd*
