

February 1, 1967

Dr. Harry S. Ladd  
c/o U. S. National Museum (Natural History)  
Washington, D.C.

Dear Harry:

Thank you for sending copies of your most recent publications, I appreciate to be remembered. The professional paper looks very good. The only criticism I have is that the plates look rather weak. That method of reproduction is not handsome enough. I am old-fashioned, I still prefer the old colotype the Journal of Paleontology used to employ 30 years ago.

Please note my new address. I am starting here on February 1, 1967, as Visiting Professor, and it is to be a protracted visit. I am to teach stratigraphy as shown in the Tertiary of the Coastal Plain. My home address is c/o High Point Apartments, Apt. #9, 3000 July Street, Baton Rouge, La., 70808.

Give everybody my best wishes,

Sincerely,

H. B. Stenzel

HBS/bjc
