Mr. Robert E. McCluer
212 Blue Bonnet
San Antonio, Texas

Dear Mr. McCluer:

Thank you for your recent shipment of fossil oysters which arrived today. These oysters are Ostrea gigantissima Finch. As far as my knowledge goes, these oysters occur only in the Jackson group. While it is true that my knowledge may need improving, it may be a good thing to check relationships in the field rather carefully. Perhaps you have faulting in that area. If you do not mind, I would appreciate it if you would give to me the exact locality descriptions, possibly some small sketches, because I wish to keep a reference of this material. If at the present time it is not advisable to do so, please keep it in mind for a later date.

Very truly yours,

H. B. Stenzel
Geologist
