Dear Doc:

Will you drop me a card advising as to whether you have written Mr. Bartlett yet or not as I am planning on going back to Houston next week if you have had a chance to write.

Have been sent to the above address to be the new Commanding Officer- will take over the 16 and would like to get that job before I commit myself by taking over about \$10000.00 worth of Government property.

Sorry to bother you but he told me to get you to write before I returned.

Have a few more crabs that I will send you shortly.

Yours,

Mac.
