

February 7, 1952

Mr. Bill Matthews  
Department of Geology  
Texas Christian University  
Fort Worth, Texas

Dear Bill:

It has not been possible to assemble your committee on such short notice. So only a preliminary answer can be given to your request as submitted to Mr. DeFord on January 31, 1952. The members of your committee which I was able to reach seemed willing to consider two alternatives: either (1) enroll in petrology or (2) audit the course and be prepared to pass an examination on this subject here. I hope this plan will help you to make a decision.

Sincerely yours,

H. B. Stenzel
