Mr H.B. Stenzel
Bureau of Economic Geology
University of Texas
University Station, Box B
AUSTIN 12.

Dear Mr. Stenzel,

Your letter of October 17th reached me today.

The zoologists concerned with marine biology are all assigned to the Marine Station, Pasar Ikan at Batavia.

Your request for accurate data on the geographic distribution of Nautilus has been forwarded by me to Dr J.D. F. Hardenberg, director of the Marine Station (in Dutch: Laboratorium voor het Onderzoek der Zee).

I asked him to contact you personally and I do hope he can supply you with the data you are interested in.

Very truly yours,

(Prof. Dr. E.A. van Baren).
