February 6, 1967

Mr. Erle G. Kauffmann
Smithsonian Institution
U. S. National Museum
Washington, D. C.

Dear Erle:

I am tardy in acknowledging your good letter to me dated 6 January 1967.

I hope that my letters to Dr. Ripley praising work by you and by others in the Smithsonian may be helpful.

The success of your work in Jamaica must be highly gratifying. Without doubt, you will have plenty to do in working things up for ultimate publication.

I am glad to know about the good progress of your chapter for the bivalve volume of the Treatise. My only worry in this area is inability to secure Henryk Stenzel's long delayed section on oysters. This simply must be achieved in the comparatively near future or an emergency will have to be faced.

With cordial best wishes,

Sincerely,
