ADDRESS REPLY TO:

P. O. Box 1683
Shreveport, Louisiana

Dr. Henryk B. Stenzel
Bureau of Economic Geology
University of Texas
Austin, Texas

Dear Dr. Stenzel:

We are sending you under separate cover a complimentary copy of our 17th Annual Field Trip Guide Book of the Cretaceous of the Austin, Texas, area. Since we have a sizeable number of these publications, I am wondering if you could aid us of disposing of them to the geological students at the University who may be interested in the Cretaceous. The price of these publications is \$2.50.

We are interested in hiring a student with a Masters Degree in Geology. If you know of an energetic, well-balanced student who is interested in working for an oil company, please have him contact us as we wish to hire one for this district.

Thank you in advance for any assistance you may give us.

Respectfully yours,

Michael W. Beckman
