Dr. H. B. Stenzal  
Bureau of Economic Geology  
Austin, Texas

Dear Doc:

I will be in the office until noon Thursday and be very glad to see Dr. Barnes about the samples any time Wednesday or Thursday morning. I think it would be a much better plan if he would plan to pick up the samples sometime after Sunday because both Lee Spyres and myself will be out of town from Thursday noon until Sunday night.

The samples are in white cloth sample bags and the cores are in fruit boxes and can be handled very easily.

Yours very truly,

F. W. "Fritz" MUELLER
