Mr. Grayson Meade
Texas Technological College
Lubbock, Texas

Dear Grayson Meade :

The reprint of "A New Species of Capromeryx from the Pleistocene of West Texas" arrived here and I want to thank you for this interesting paper. It is a pleasure to see that you are already active collecting these new fossils.

You should be working in Houston County this summer because there is a Nebraska University graduate working for an oil company there. His name is Iverson and you would have much to talk about.

With best regards to your family,

Sincerely yours,

H.B. Stenzel, Geologist
