Prof. H. B. Stenzel
Department of Geology
Agricultural & Mechanical College of Texas
College Station, Texas

My dear Prof. Stenzel:

This acknowledges receipt of your manuscript on "Decapod Crustaceans from the Middle Eocene of Texas". It will be considered carefully by editors of the Journal of Paleontology, but the earliest it can possibly appear is June of this year.

I am very glad to know that you have received some help from the National Research Council in your work on the Eocene.

I am sorry that my crab specimen didn't turn out so well, but appreciate very much your kindness in sending some material from this horizon to represent this interesting group in our museum collections.

With regards, I am

Very sincerely,
