Prof. H. B. Stenzel
Agricultural & Mechanical College
College Station, Texas

My dear Prof. Stenzel:

I have taken the liberty of submitting the title of your paper "Decapod Crustaceans from the Middle Eocene of Texas" to B. F. Howell, Secretary of the Paleontological Society, for inclusion on the Society program at Chicago. I think that you are not now a member of the Paleontological Society, and accordingly I shall arrange to have the paper introduced by a member. I have done this because I think it may contribute importantly to arrangements for early publication of your paper. Otherwise there is prospect of somewhat indefinite delay. If for any reason there is objection to this inclusion on the Chicago program, please write or wire B. F. Howell, Princeton University, immediately withdrawing your paper. Also, if you will advise me, I can return your manuscript. I do not think you will want to withdraw your paper and I certainly hope not.

Assuming that you permit the title of your paper to appear on the Chicago program, there is one item of information that is needed immediately by Doctor Howell. Will you be present at the meeting and do you care to present the paper in person or do you wish the paper presented by title? Please write or wire Doctor Howell immediately concerning this.

Thanking you, I am

Very sincerely,

R. Moore
Editor
Journal of Paleontology.
