

A.E.P.G.

February 26, 1953

Prof. H. B. Stenzel
Bureau of Economic Geology
Austin, Texas

Mr. Terry Mac Anderson, Continental Oil Co., Box 1506,
Shreveport, Louisiana Junior

Terry Anderson was one of my students from February 1 to May 31, 1951, and was my research assistant at the Bureau of Economic Geology from July 17, 1950, to August 31, 1951. He is very well known to me. He is a young geologist with the usual preparation of a graduate of this University. He was an excellent student and quite well versed in geology. His training included supervised research here at the Bureau. He is alert, studious, of good behaviour and character. I wish to recommend him highly.
