

April 27, 1970

Professor Raymond C. Moore
Paleontological Institute
University of Kansas
Lawrence, Kansas 66044

Dear Ray:

Professor Mirkamalov of Tash Kent in Central Asia has sent me by registered airmail the laboriously photographed copy of his newest work on oysters. He must think it is important and it should be included in the oyster volume of the Treatise. Can you squeeze it into the References? One ought to be nice to him, because he has been kind to me and has helped me before.

Here is the reference:

Mirkamalov, Kh. Kh.
1969, Ob ob'eme vida Rhynchostreon columbum (Lam.)
i ego rodovoy prinadlezhnosti (abstract):
Moskovskae obshchestvo ispytateley prirody
byulletin, n. ser., v. 74, otdel geol., v. 44,
no. 6, noyabr' - dekabr', vykhodit 6 raz v god,
Moscow, p. 150-151.

I hope the recent disturbances at Lawrence have not affected you adversely.

Cordially,

H.B. Stenzel
Consulting Professor
