

August 1, 1969

Professor Raymond C. Moore  
Department of Geology  
University of Kansas  
Lawrence, Kansas

Dear Ray:

Thank you for your letter dated 24 July. I am glad to hear you are out of the hospital. I notice from your comments and criticism of the title "Nomenclatural Clarifications" that the editor has put his finger unerringly on a very weak spot. Your illnesses have not diminished your mental acuity. Na zdrowie!

As to the ms. on "Nomenclatural Clarifications" the proposed new title is "Nomenclatural Clarifications of some generic and subgeneric names in the family Ostreidae (Bivalvia)." Enclosed sheet is an outline of headings in the ms., for the use of the editor only.

\* Enclosed is another copy (my last one) of the Fig. C. 2 of the "Nomenclatural Clarifications....", for which I have a request from Lavon McCormick.

Cordially,

H.B. Stenzel,  
Consulting Professor

HBS/po
