Dear Henryk:

Thank you for your letters of June 3 and 4, 1969. I am preparing to leave for our mountain home in Colorado where I hope to spend a couple of months of uninterrupted work on projects which are now lagging far behind.

I would, therefore, advise you to address all correspondence concerning technicalities of your manuscript to Mrs. Lavon McCormick. She has everything well under control and cooperates closely with our artist, Roger Williams. Between the two of them, they can handle all your materials competently. Mrs. McCormick will probably want to consult with you frequently.

When you have shaken your MS loose from Lankford, I suggest that you send it either to me or Ray. If it provides background material for your Treatise volume, we could probably print it in the Paper series of the Paleontological Contributions. Many important nomenclatural discussions in Treatise volumes are printed in small type. As an example, I invite your attention to Part K, p. K338, discussion of the type species of Phragmoceras. I do not think that the information provided there is "unimportant", nor should the reader be led to think so.

Ray seems to be making a nice recovery. He would, no doubt, be glad to hear from you. My summer address will be Box 391, Route 3, Golden, Colorado 80401. I shall be ready at all times with advice if such is needed.

With best wishes,

Sincerely yours,

Curt Teichert
