Dear Bill:

A rumor originating in one of the graduate students at Rice University has just been forwarded to me by Henryk Stenzel to the effect that a dozen years or so ago you did a great deal of work on the rudist clams, but this never was released for publication. I inquire because possibly you might give some aid in connection with a chapter on these fossils which I am awaiting from Dr. L. R. Cox of the British Museum--original typescript was prepared by Colette Deschaseaux.

With cordial personal best wishes,

Sincerely,
