

December 2, 1938

Mr. F. W. Rolshausen
1068 Humble Building
Houston, Texas

My dear Mr. Rolshausen:

I am sending you by separate mail a sack of material from the type locality of Nonionella cockfieldensis. Please keep the larger fossils for me when you get the material washed.

I hope to see you on the Houston Geological Society field trip.

Very sincerely yours,

H. E. Stenzel, Geologist
