Dear Dr. Stenzel:

The Flemingostrea subspatulata sent to you are those I mentioned in Houston and included the specimen with frills. The specimens were not collected by me, but for me, and I will probably get a chance to collect after Christmas holidays on my way to Baldwin County, Alabama. On Christmas trip will collect the area most carefully.

I am glad to be able to collect the specimens for you.

Sincerely yours,

Ernest E. Russell

P.S. Please give my regards to "Rainey".
