Dr. Harold W. Scott
Department of Geology
University of Illinois
Urbana, Illinois

Dear Dr. Scott :

Thank you for your letter of November 8 which arrived in my absence. I am happy to note that an interesting symposium is being planned for the April meeting at St. Louis in 1951. I am sure the planning is in good hands. As to my giving a paper, that is for the present not possible unfortunately because I am tied down with other work so much that I cannot prepare any papers except on subjects with which I am working right now. The subject you have in mind is somewhat far removed from what I am doing, and I simply do not have enough time to do it justice. I hope you will be able to find someone else to prepare such a paper. I think that the people you have already rounded up for the papers will make the symposium very interesting.

With regards,

Sincerely yours,

H. B. Stenzel
