Dr. H. B. Stenzel,
Bureau of Economic Geology,
University of Texas,
Austin, Texas.

Dear Dr. Stenzel:

I have had a note from Lon Cartwright mentioning a discussion he had with you about the Claiborne stratigraphy along the Sabine River. I have been doing some work in the area and I would like to have a little "get-together" with you and compare notes. Lon said that you get to Henderson occasionally and if it would be convenient, let me know when you plan to go to Henderson again and I could meet you there and save a trip to Austin.

Very truly yours,

E. W. Scott
