Dr. H. B. Stenzel
Texas Bureau of Economic Geology
University of Texas
Austin, Texas

Dear Dr. Stenzel:

In a recent telephone conversation with President Moody, he said there may be room for a few more papers on the technical program of the A.A.P.G. annual meeting in St. Louis April 23-26, 1951. He specifically asked if the paper which you submitted recently for publication in the Bulletin entitled "Buried Hill at the Wilcox-Carrizo Contact in East Texas" might be available for oral presentation. If you think well of this proposal, will you please get in touch with the Program Chairman, Mr. Walter H. Spears, Union Producing Company, Box 1407, Shreveport, Louisiana?

A copy of my letter to Mr. Hall approving publication in the Bulletin is enclosed.

With kind regards,

Sincerely yours,

Encl.
