Austin 12
Texas

Dear Stenzel:

I was glad to get your letter of Sept. 27 and the specimen of Knemiceras roemeri. Little by little those things come in, but they are really hard to find when you go out to look for them.

Enclosed is a copy of letter to Cheney which I hope will do you some good, although I should deeply regret seeing you leave this section.

Hope to get down to Austin soon and see you.

Sincerest good wishes,

Gayle Scott
