

SHELL

EXPLORATION DEPARTMENT FEBRUARY 9, 1937

COPY

SAN ANTONIO - MR. K. S. FERGUSON

We are sending under separate cover for Dr. Stenzel's use the following:

(1) A combination of the northern portion of TK and TH regional maps, scale 1 inch equals 8000 feet, folded for field use (Register No. 15401). It is posted with subsurface well data, subsurface faults, and so forth, and the Shell leases are outlined in red, according to his request.

(2) Plat XVI from Texas Report No. 332 which covers the area of immediate interest to him (Register No. 15423).

(3) Schlumberger log of Teas, Vinklarek No. 1, with paleo summary attached, which was requested before he left the office.

In addition, we have sent an assortment of sample bags intended to have been included with his equipment.
