

March 11, 1941

Dr. Ellis W. Shuler
Department of Geology and Geography
Southern Methodist University
Dallas, Texas

Dear Dr. Shuler:

Mr. Adkins and Dr. Gayle Scott have both told me that you have a very fine fossil lobster in your collection. I am at present working on Cretaceous Crustaceans, and am describing several new species of lobster. I believe this would be a good occasion to have your lobster described too. I would appreciate it greatly if you were to be so kind as to send me the fossil. Naturally I shall take good care of it and return the specimen to you.

Very truly yours,

H. B. Stenzel, Geologist
