Dear Martha Lou:

Before I left Houston I dropped by your office and found the copy of my manuscript you had been working on. I have taken the copy along with me. You did some nice work editing parts of it and in particular you improved the sentence structure in many places. For this I would like to thank you very much. Every bit helps.

L.S.U. has a very fine geology book collection in the library. A quick check showed that 46 percent of the books and articles in the oyster bibliography are here. That is very good.

With thanks and best regards

Sincerely yours,

HBS/mm
