CAMBRIDGE 39, MASSACHUSETTS

1 October 1958

Dr. Henryk B. Stenzel  
3726 Colquitt  
Houston, Texas

Dear Henryk:

I am sending you a rough draft of the report that we put together for Rittenhouse last Saturday, and also a rough draft of the covering letter that we decided should be sent in explanation of our recommendations.

If you will make in these two items such changes and modifications as you think appropriate, and return these to me at your convenience, I will proceed to prepare the best copy I can using your suggestions and those that I shall request from Francis Pettijohn.

It was certainly a pleasant interlude to participate in the symposium last week, and I am still feeling the stimulation from it even though I am covered with the avalanche of departmental affairs that descended on me last Monday morning.

Cordially yours,

Robert R. Shrock  
Chairman
